

Summary: Operations and finance professional with 6+ years of experience supporting project coordination, reporting, systems implementation, and operational readiness across global events, healthcare, and professional services. Proven ability to translate business needs into data driven reporting solutions, coordinate cross functional stakeholders, manage concurrent projects, and support critical decision making in fast paced environments.

Job Experience:

FIFA World Cup 2026, Seattle, WA

March 2026 – July 2026

Position: Ticketing - Electronic Access Control Supervisor

- **Operational Readiness:** Served as the sole FIFA EAC representative supporting operational planning, deployment, testing, and live operation of electronic access control systems for a 60,000+ capacity venue; tracked readiness activities, outstanding items, and operational deliverables leading into match days.
- **Live Monitoring and Reporting:** Monitored live operational dashboards, access control event logs, and ticket validation activity during live matches; troubleshooting technical issues and coordinating with ticketing, technology, and security teams to maintain uninterrupted stadium entry.
- **Incident Response:** Investigated operational and technical incidents, documented findings, and coordinated issue resolution with ticketing, technology, and security stakeholders.
- **Leadership:** Developed and delivered training for staff, volunteers, and security partners on electronic access control systems, reporting workflows, incident response protocols, and operational procedures.
- **Coordination:** Collaborated with venue operations, technology providers, municipal agencies, and security partners to support integrated operational planning and game time readiness.

UW Medicine, Seattle, WA

January 2023 – September 2025

Position: Senior Financial Analyst – Financial Reporting

- **Data Analysis & Reporting:** Developed executive dashboards, financial reports, KPI's, and presentations used by executives, state officials, and public health stakeholders to support strategic decision making.
- **Systems Implementation:** Served as a key lead during enterprise Workday implementation, coordinating finance, IT, and operational stakeholders while transitioning 50+ years of legacy data. Additionally, implemented reporting processes for \$25M+ in software assets.
- **Operations Support:** Managed a high volume internal finance ticketing system, gathering business requirements, prioritizing issues, coordinating cross functional resolution, and developing tracking dashboards to support operational decision making.
- **Program Tracking:** Monitored expenditures and program performance for state funded initiatives, ensuring compliance while providing data driven reporting to support operational oversight.

RSM US LLP, Seattle, WA

October 2019 - October 2022

Position: Senior Associate - Audit

- **Project Management:** Managed concurrent client engagements, coordinating cross functional teams, project schedules, stakeholder communications, and deadlines across multiple teams.
- **Leadership:** Supervised and mentored teams of up to four junior associates, serving as the main point of contact for complex client engagements.
- **Stakeholder Management:** Acted as primary liaison between client management and internal/external stakeholders to align on deliverables, business critical agreements, and deadlines.

Education and Skills:

- **Education:** Masters of Professional Accountancy, Bachelor of Science in Accounting, Bachelor of Arts in Political Science – Montana State University. Studied abroad at University of Western Australia.
- **Systems:** Microsoft Office Suite, Excel, Smartsheets, Sharepoint, Monday, CCH Axess, Workday, Caseware IDEA, Yardi, QuickBooks, Power BI Dashboards, Power Query, Blackline, RFID/NFC Ticketing.
- **Business Operations:** Requirements gathering, process improvement, stakeholder management, cross functional coordination, operational planning, project management, financial modeling, data visualization, dashboard development, KPI reporting, data analysis, workforce training, contract compliance.
- **Hospitality:** ServSafe Alcohol Certified, MAST Certified, Certified Beer Server, Washington Food Worker Card.
- **Volunteer Service:** FIFA Great Assist, UW Medicine Affinity Groups, Ronald McDonald House, Relay for Life.
